NWOEA Endorses Dan Greenberg

Dan Greenberg (Sylvania) has announced his candidacy for the office of NEA Director #5. Dan was endorsed by the NWOEA Board of Directors at its November meeting and by the NWOEA delegates at the 2017 OEA Fall RA. The election for the position of NEA Director #5 will take place at the OEA Spring RA on May 11, 2018.

Dan is currently serving his first year as the NWOEA Unit I Representative on the OEA Board of Directors. In 2012 he was elected to the NWOEA Board of Directors as a Unit I Representative, a position he held until June 2013 when he was appointed as the NWOEA Vice President. At the local level, Dan is in his fifth year as President of the Sylvania

Education Association (SEA). He has also served as his local's Vice-President, the SEA Representative on the AFL-CIO Council, a member of the Sylvania Labor-

Management Relations Committee, and a negotiator on the bargaining team.

Dan is in his twentieth year of teaching and is currently instructing English at Sylvania Southview High School. He received his Bachelor's Degree from Kent State University and his Master's Degree from Marygrove University.

Eager to improve the education profession, Dan states: "Public education is under attack, and our collective action as part of the education association, at all levels, is the way to stand up for our schools and our students. I am committed to finding ways to connect with and empower our members, to increase the strength of our association and the power of our voice." ■

From left, Miriam Downing and Ernest Daugherty (Lima) and Katherine Jensen (Sylvania) congratulate Dan Greenberg on his endorsement for the position of NEA Director #5 by the NWOEA Delegates at the OEA Fall RA.

All three will serve on the Board of Directors until the next NWOEA RA scheduled for April 12, 2018, when elections will be held for these positions. ■

Preparing for the Future

*Notes from
NWOEA
President
Jennifer Long*

Now that 2017 has come to a close, we can reflect on our blessings and be thankful for our friends, family, students and fellow educators. After twenty-six years in public education I am thankful each day for the students I teach and the challenges and inspiration they give me each day. Just as we face challenges in our own classrooms each day with an attitude of perseverance, we will need to keep the same attitude as we face the loss of Fair Share Fee as a result of the Janus vs. AFSCME case that will go before the United States Supreme Court in 2018. The Janus case is a US Supreme Court

case that addresses the right of public sector unions to collect fair share fees from non-members. This is an organized attack to weaken the association. We must remember that a strong union provides better working and learning conditions. A strong union allows us to advocate for our students and exercise our collective power to influence change and the future of public education.

In the coming months it will be vital to the future of our association to build visibility and relevancy with our members. Local leaders are encouraged to engage with members and listen to their members through one-on-one conversations. We must communicate who we are, what we do and what is at stake. Engaged members will remain members whether fair share fees exist or not. I encourage local leaders to enlist the help of the local executive committee, board of directors or fellow officers to create a culture of relevance

and visibility at the local level. As I prepare for my Executive Committee meetings in my local, I will pose these three questions.

1. What did we do last month to be more relevant and visible to our members?
2. What are we going to do next month to be more relevant and visible to our members?
3. What can we do to support our members as a professional resource and to support student learning and achievement?

I challenge each local in NWOEA to engage more members, identify their strengths and nurture and develop new leaders as we prepare for the challenges of the New Year. The strength of the Ohio Education Association was built before fair share fee and to quote OEA President Becky Higgins, "We existed before fair share fee and we will still be here when there is no fair share fee."

As we begin the New Year may we be blessed and recognize that together we are stronger and together we will meet the challenges of the future. ■

2017 OEA Fall RA

The 2017 Ohio Education Association Fall Representative Assembly (OEA RA) was held December 2 at Cardinal Hall on the Ohio State Fairgrounds. Of the 816 registered delegates in attendance, 54 were from NWOEA, representing 19 locals and the NWOEA-Retired. Contributions to the Fund for Children and Public Education (FCPE) totaled \$30,937.99. Delegates voted to adopt the proposed 2017-2018 Legislative Policies for Achieving Excellence in Education as amended. They also passed the following New Business Items:

- New Business Item #1: OEA will request information on the number of seniors who are on track to graduate, given their specific guidelines, from local presidents by the end of February and share the information with members through existing communication channels.
- New Business Item #2: Create an OEA Special Education Work Group to develop recommendations for professional development programs, sample contract language, OEA Resolutions, and OEA Legislative Policies that would address the needs of OEA members involved in or supporting education programs for students with special needs.

All candidates running for Ohio Governor were invited to address the delegates. The following candidates accepted the invitation and were warmly greeted: Connie Pillich, Joe Schiavoni, Betty Sutton, and Nan Whaley. However, it was Senator Sherrod Brown who received the loudest, biggest positive reaction from the RA floor. ■

Left: Brenda Ames (Elida) and Amanda Dyer (Kenton) had the opportunity to meet Senator Sherrod Brown at the OEA RA.

STRS Ohio Makes Funding Progress

*By Tim Myers,
STRS Board
Member and
Past Chair*

Each year, STRS Ohio’s actuarial consultant prepares a report that measures the financial condition of the pension fund. The annual pension valuation report provides a “snapshot” of the fund at the end of each fiscal year. Segal Consulting shared its report with the Retirement Board in October, and results show the system’s funding improved during fiscal year 2017. The most common ways to express the financial condition of the fund are through the funded ratio and the funding period. The funded ratio is the value of assets compared to the benefits earned by members of the system (the actuarial accrued liabilities in actuary-speak). This year’s report showed the funded ratio improved to 75.1% from 69.6% last year. The funding period is a projection of the amount of time it would take to reach 100% funded status under current assumptions and benefit levels. STRS Ohio’s funding period also improved, dropping to 18.4 years from 26.6 last year.

The two primary reasons for the funding improvement were the COLA reduction and strong investment returns. In the fall issue of this newsletter, I shared that STRS Ohio’s investment return topped 14% in fiscal 2017 and ranked in the top 20% of public funds. The positive returns leave the pension fund with a net \$155 million in deferred investment gains that will be recognized over the next three years. The fund uses a common actuarial technique called “smoothing” to spread investment gains and losses over a four-year period rather than a one-year “spike” each year.

The board’s decision to reduce the COLA to 0% had a substantial impact on the system’s funded status. Segal shared that without this change, STRS Ohio’s funded ratio would be just 66.6% and the funding period would have increased to 50.4 years. The state of Ohio wants pension funds to have a funding period of no more than 30 years. Other important points from the report include:

- STRS Ohio’s Defined Benefit and Combined Plans paid more than \$7 billion in benefits during the fiscal year.
- The retirement system’s unfunded actuarial accrued liability decreased to \$23.9 billion from \$30.6 billion.
- Total covered payroll increased by 4.1%, exceeding STRS Ohio’s payroll growth assumption of 3%.

While the funding improvement is good news for the system, we still need to focus on increasing the funded ratio. The current ratio of 75.1% is the highest level we have reached since the great recession, but still leaves STRS Ohio vulnerable to the negative effects of a stock market correction. Staff notes that, because of the volatility around investment returns, STRS Ohio faces about a 30% chance that the pension fund drops below a 50% funded ratio in the next 10 years. The board and staff will continue to work together to monitor STRS Ohio’s financial strength and are committed to open and honest communication with you about your pension fund. You can keep up to date on the latest news about STRS Ohio by signing up to receive an eUPDATE following each Retirement Board meeting. You can register for these emails by logging into your personal account via the STRS Ohio website and updating your communication preferences. You can also receive regular updates by following STRS Ohio on Facebook and Twitter, or visit the News section on the STRS Ohio website at www.strsoh.org. ■
